

This drawing is conceptual only and is meant to show only the rough connection points to the District's system. The parties acknowledge that the County's design of the SPU intertie and the twin line has not been completed and that the design process will determine the exact configuration of the SPU pipeline and the twin line which may be different from that depicted in this drawing.

Exhibit B

Conceptual Map of "Twin-Line" and Connection of Transmission Line with District's Water Supply System

March 27, 2008
